Furnace Parts LLC to Showcase the Latest in Industrial Thermocouples and Temperature Sensors at Furnace North America 2008 Show

Cleveland, Ohio—(August 20, 2008)—Furnace Parts LLC will exhibit at the upcoming Furnaces North America 2008 trade show held in Nashville, Tennessee October 21-22, 2008, www.heattreatonline.com/fna2008. The company's knowledgeable and experienced technical sales and application engineering professionals will be at **Booth #334** to assist with thermocouple and temperature sensing requirements.

"This is our first time exhibiting at the show and we're looking forward to this exciting venue to share our latest products and services with new and existing customers," says Thomas "L.T." Slater, president/CEO, Furnace Parts.

Specializing in the manufacture of specialty industrial thermocouples, Furnace Parts' products and services include:

- Thermocouple and RTD assemblies
- Bare and insulated wire
- NIST traceable calibration services
- Protection tubes and thermowells
- Heads, blocks and connectors
- Control instrumentation
- Alloy fabrications—muffles, retorts, grids, fixturing and boxes

Calibration Laboratory

Visitors to the booth can learn all about the company's in-house Calibration Laboratory. It provides sensor and instrumentation calibration and repair services for secondary standard and field test potentiometers and calibrators, as well as working standard temperature indicators, controllers and recorders.

The Furnace Parts Calibration Laboratory was one of the first of its kind to receive the prestigious ISO/IEC 17025 accreditation. The company's products are certified to meet AMS 2750D and BAC 5621K specifications. NIST traceable calibration reports are available based on customer requirements. Furnace Parts' calibration capabilities include thermocouples and temperature instrumentation.

One Year Anniversary: New Ownership

Furnace Parts recently celebrated its first anniversary under new ownership. While the company has been in existence since 1974, new ownership is committed more than ever to customer satisfaction.

“All areas of our business were streamlined under the new ownership group over the past year, each in an effort to provide thermocouples and temperature sensors that exceed the quality expectations, the delivery requirements and the expected value of each and every one of our customers,” says Slater.

The current Furnace Parts management group, which includes the company’s highly active ownership, combines long standing experience in all facets of industrial manufacturing – including operations, finance, sales, marketing and quality control.

Furnace Parts LLC

Founded in 1974 in Cleveland, Ohio, Furnace Parts LLC is an industry leader in the manufacture of specialty industrial thermocouples. Our expertise in thermocouple applications spans a vast array of industries, including steel and specialty metal fabrication, oil and gas, heat treating/thermal processing and aerospace, to name a few. We excel in temperature measurement solutions. For additional information, please visit our Web site at www.furnacepartslc.com or call 800-321-0796.
